1. Identification of the substance/preparation and of the company/undertaking

Product name: CRYOLANT RB-32
Product use: Ester for Refrigeration Lubricants
Supplier: PATECH FINE CHEMICALS CO., Ltd
Address: No.20, Dong 1 RD., Changhua Coastal Industrial Park, Hsien Hsi Shiang, Changhua Hsien, Taiwan, R.O.C.
Telephone No: +886-4-758-8688
Telefax: +886-4-758-8699
Mail address: contme@patechfc.com.tw

EMERGENCY TELEPHONE NUMBER: 886-4-758-8688(24hr)

2. Hazards identification

This preparation is not classified as dangerous according to Directive 1999/45/EC as amended and adapted.

Physical/chemical hazards
Not classified as dangerous.

Human health hazards
Not classified as dangerous.

Environmental hazards
Unlikely to be harmful to aquatic organisms.

Effects and symptoms

Eyes: No significant health hazards identified.
Skin: No significant health hazards identified.
Inhalation: No significant health hazards identified.
Ingestion: No significant health hazards identified.

3. Composition/information on ingredients

<table>
<thead>
<tr>
<th>Weight %</th>
<th>Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt;99.0</td>
<td>Not classified</td>
</tr>
</tbody>
</table>

This product does not contain any hazardous ingredients at or above regulated thresholds.

4. First aid measures

Eye Contact
In case of contact, immediately flush eyes with a copious amount of water for at least 15 minutes. Get medical attention if irritation occurs.

Skin Contact
In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if irritation develops.

Inhalation
If inhaled, remove to fresh air. Get medical attention if symptoms appear.

Ingestion
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately.

Notes to physician
Treatment should in general be symptomatic and directed to relieving any effects. Surgical exploration should be undertaken without delay. Thorough and extensive debridement of the wound and underlying tissue is necessary to minimise tissue loss and prevent or limit permanent damage. Note that high pressure may force the product considerable distances along tissue planes.

5. Fire-fighting measures

Extinguishing Media

Suitable
In case of fire, use water fog, foam, dry chemical or carbon dioxide extinguisher or spray.

Not Suitable
Do not use water jet.

Unusual fire/explosion Hazards
None identified.
Protection of fire-fighters
Fire-fighters should wear self-contained positive pressure breathing apparatus (SCBA) and full turnout gear.

6. Accidental release measures

Personal Precautions
Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (See Section: "Exposure controls/personal protection"). Follow all fire fighting procedures (See Section: "Fire-fighting measures").

Environmental precautions and clean-up methods
If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal. Minimize contact of spilled material with soils to prevent runoff to surface waterways. See Section 13 for Waste Disposal Information.

Personal protection in case of a large spill

7. Handling and storage

Handling
Wash thoroughly after handling. Avoid strong oxidizers.

Storage
Keep container tightly closed. Keep container in a cool, well-ventilated area.

8. Exposure controls/personal protection

Occupational exposure limits
This product does not have any assigned OELs.

Control Measures
Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapours below their respective occupational exposure limits. Ensure that eyewash stations and safety showers are close to the workstation location.

Hygiene measures
Wash hands after handling compounds and before eating, smoking, using lavatory, and at the end of day.

Personal protective equipment Respiratory system
None required; however, use of adequate ventilation is good industrial practice.

Skin and body
None required; however, use of protective clothing is good industrial practice.

Hands
None required; however, use of gloves is good industrial practice.

Eyes
Safety glasses with side shields.

9. Physical and chemical properties

Flash point : 215°C (C.O.C)
Pour Point : -48 °C
Colour : yellowish.
Physical state : Liquid.
Odour : Mild odor
Density : 944kg/m3(0.944 g/cm3) at 20°C
Solubility : Insoluble in water.
Viscosity : Kinematic: 32 mm2/s (32 cSt) at 40°C ;5.3mm2/s (5.3cSt) at 100°C

10. Stability and reactivity

Incompatibility with various substances
Reactive with oxidising agents.

Hazardous polymerization
Will not occur.

11. Toxicological information

Acute toxicity
Unlikely to cause more than transient stinging or redness if accidental eye contact occurs. Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis.
Unlikely to cause harm if accidentally swallowed in small doses, though larger quantities may cause nausea and diarrhoea. At normal ambient temperatures this product will be unlikely to present an inhalation hazard because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fumes resulting from thermal Augomposition products occurs.

**Carcinogenic effects**

**Chronic toxicity**

No component of this product at levels greater than 0.1% is identified as a carcinogen by ACGIH, the International Agency for Research on Cancer (IARC) or the European Commission (EC).

---

**12. Ecological information**

**Persistence/degradability**

Inherently biodegradable.

**Mobility**

Spillages may penetrate the soil causing ground water contamination.

**Bioaccumulative potential**

This product is not expected to bioaccumulate through food chains in the environment.

**Environmental hazards**

Unlikely to be harmful to aquatic organisms.

**Other ecological information**

Spills may form a film on water surfaces causing physical damage to organisms. Oxygen transfer could also be impaired.

---

**13. Disposal considerations**

**Disposal Consideration /Waste information**

Where possible, arrange for product to be recycled. Dispose of via an authorised person/ licensed waste disposal contractor in accordance with local regulations.

**Used/contaminated product**

**European waste catalogue (EWC)**

13 02 06* Synthetic engine, gear & lubricating oils

---

**14. Transport information**

Not classified as hazardous for transport (ADR, RID, UN , IMO, IATA/ICAO).

---

**15. Regulatory information**

**Label Requirements**

**Risk Phrases**

This product is not classified according to the EU regulations.

**EU Regulations**

Classification and labelling have been performed according to EU directives1999/45/EC and 67/548/EEC as amended and adapted.

**Other regulations Inventories**

AUSTRALIAN INVENTORY (AICS): In compliance.

Notice to reader

Although CRYOLANT RB-32 has not been pre-registered under REACH regulation, PATECH will proceed with late pre-registration as soon as customer from EU place an order or import this material into EU. Quantity need to be over 1.0 mt.

All reasonably practicable steps have been taken to ensure this data sheet and the health, safety and environmental information contained in it is accurate as of the date specified below. No warranty or representation, express or implied is made as to the accuracy or completeness of the data and information in this data sheet.

The data and advice given apply when the product is sold for the stated application or applications. You should not use the product other than for the stated application or applications without seeking advice from us.

It is the user’s obligation to evaluate and use this product safely and to comply with all applicable laws and regulations. The PATECH FINE CHEMICALS shall not be responsible for any damage or injury resulting from use, other than the stated product use of the material, from any failure to adhere to recommendations, or from any hazards inherent in the nature of the material. Purchasers of the product for supply to a third party for use at work, have a duty to take all necessary steps to ensure that any person handling or using the product is provided with the information in this sheet. Employers have a duty to tell employees and others who may be affected of any hazards described in this sheet and of any precautions that should be taken.
SAFETY DATA SHEET

1. Identification of the substance/preparation and of the company/undertaking

This product does not contain any hazardous ingredients at or above regulated thresholds.

4. First aid measures

Eye Contact
In case of contact, immediately flush eyes with a copious amount of water for at least 15 minutes. Get medical attention if irritation occurs.

Skin contact
In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention if irritation develops.

Inhalation
If inhaled, remove to fresh air. Get medical attention if symptoms appear.

Ingestion
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately.

Notes to physician
Treatment should in general be symptomatic and directed to relieving any effects. Surgical exploration should be undertaken without delay. Thorough and extensive debridement of the wound and underlying tissue is necessary to minimise tissue loss and prevent or limit permanent damage. Note that high pressure may force the product considerable distances along tissue planes.

5. Fire-fighting measures

Extinguishing Media
Suitable
In case of fire, use water fog, foam, dry chemical or carbon dioxide extinguisher or spray.

Not Suitable
Do not use water jet.

Unusual fire/explosion Hazards
None identified.
Protection of fire-fighters
Fire-fighters should wear self-contained positive pressure breathing apparatus (SCBA) and full turnout gear.

6 .Accidental release measures
Personal Precautions
Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (See Section: "Exposure controls/personal protection"). Follow all fire fighting procedures (See Section: "Fire-fighting measures").

Environmental precautions and clean-up methods
If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal. Minimize contact of spilled material with soils to prevent runoff to surface waterways. See Section 13 for Waste Disposal Information.

Personal protection in case of a large spill

7 .Handling and storage
Handling
Wash thoroughly after handling. Avoid strong oxidizers.

Storage
Keep container tightly closed. Keep container in a cool, well-ventilated area.

8 .Exposure controls/personal protection
Occupational exposure limits
This product does not have any assigned OELs.

Control Measures
Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapours below their respective occupational exposure limits. Ensure that eyewash stations and safety showers are close to the workstation location.

Hygiene measures
Wash hands after handling compounds and before eating, smoking, using lavatory, and at the end of day.

Personal protective equipment
Respiratory system
None required; however, use of adequate ventilation is good industrial practice.

Skin and body
None required; however, use of protective clothing is good industrial practice.

Hands
None required; however, use of gloves is good industrial practice.

Eyes
Safety glasses with side shields.

9 .Physical and chemical properties
Flash point : 275°C (C.O.C)
Pour Point : -24 °C
Colour : yellowish.
Physical state : Liquid.
Odour : Mild odor
Density : 961kg/m3(0.961 g/cm3) at 20°C
Solubility : Insoluble in water.
Viscosity : Kinematic: 220 mm2/s (220 cSt) at 40°C ;18.1mm2/s (18.1cSt) at 100°C

10 .Stability and reactivity
Incompatibility with various substances
Reactive with oxidising agents.

Hazardous polymerization
Will not occur.

11.Toxicological information
Acute toxicity
Unlikely to cause more than transient stinging or redness if accidental eye contact occurs. Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis.
Unlikely to cause harm if accidentally swallowed in small doses, though larger quantities may cause nausea and diarrhoea.

At normal ambient temperatures this product will be unlikely to present an inhalation hazard because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fumes resulting from thermal Augomposition products occurs.

**Carcinogenic effects**

**Chronic toxicity**

No component of this product at levels greater than 0.1% is identified as a carcinogen by ACGIH, the International Agency for Research on Cancer (IARC) or the European Commission (EC).

12. **Ecological information**

**Persistence/degradability**

Inherently biodegradable.

**Mobility**

Spillages may penetrate the soil causing ground water contamination.

**Bioaccumulative potential**

This product is not expected to bioaccumulate through food chains in the environment.

**Environmental hazards**

Unlikely to be harmful to aquatic organisms.

**Other ecological information**

Spills may form a film on water surfaces causing physical damage to organisms. Oxygen transfer could also be impaired.

13. **Disposal considerations**

**Disposal Consideration /Waste information**

Where possible, arrange for product to be recycled. Dispose of via an authorised person/ licensed waste disposal contractor in accordance with local regulations.

**Used/contaminated product**

**European waste catalogue (EWC)**

13 02 06* Synthetic engine, gear & lubricating oils

14. **Transport information**

Not classified as hazardous for transport (ADR, RID, UN , IMO, IATA/ICAO).

15. **Regulatory information**

**Label Requirements**

**Risk Phrases**

This product is not classified according to the EU regulations.

**EU Regulations**

Classification and labelling have been performed according to EU directives 1999/45/EC and 67/548/EEC as amended and adapted.

**Other regulations Inventories**

AUSTRALIAN INVENTORY (AICS): In compliance.

CANADA INVENTORY (DSL): In compliance.

CHINA INVENTORY (IECSC): In compliance.

EC INVENTORY (EINECS/ELINCS): In compliance.

JAPAN INVENTORY (ENCS): In compliance.

KOREA INVENTORY (ECL): In compliance.

PHILIPPINE INVENTORY (PICCS): In compliance.

US INVENTORY (TSCA): In compliance.

**Hazard class for water (WGK)**

Reg. no.: 4197

Status: P: Classification according to annex 3

WGK: 1
